GOVERNMENT PUSHES FORMATION OF COMBINES

ESTABLISH LOCAL INDUSTRIAL COMBINES -- Sofia Zemedelsko Zname, 30 Jul 50

Since May 1950, the administrations of okoliya people's soviets and affiliated municipal soviets have been establishing combines of their industrial enterprises. So far, 100 of the 102 okoliya throughout the country have organized the combines. The exceptions are Zlatograd and Ardino, where the people's soviets do not have any industrial enterprises.

Some okoliya soviets, however, have failed to coordinate their industrial and agricultural activities, and have not given sufficient attention to the early completion of the harvesting campaign.

Generally speaking, the okrug and okoliya people's soviets have not yet achieved the proper organization of the combines, especially in regard to the completion of production schedules, accounting, personnel, and plan fulfillment. Plans have been set up to assure circulating funds for the industrial activity. Until financial plans provide the necessary support for the combines, they will be granted interest—free credits.

FINANCE INDUSTRIAL COMBINES -- Sofia Zemedelsko Zname, 23 Jul 50

In connection with the financing of the recently established industrial combines, the Ministry of Finance has published the following directives:

The okoliya people's soviets and affiliated soviets will have to make all necessary provisions to furnish the combines with the indispensable initial and personnel expenditure funds. The soviets are therefore requested to study carefully the financial requirements of the combines and grant the latter the necessary sums, free of interest, and to be drawn from the reserve fund of the soviet budgets. The funds can be appropriated only for initial expenditures actually made, whereas the personnel expenditures must be carefully evaluated.
